

Assembly

1. Cut the paper tube lengthwise
2. Cut out a 4in by 2.75in sheet of aluminium foil
3. Apply glue to the half tube
4. Put aluminium foil on
5. Put supports on the two ends
6. Sand coat hanger
7. Insert into supports
8. Tape small amount of aluminium foil over coat hanger
9. Repeat steps 2-8
10. Clip into body and space tips so they are close but not touching
11. Twist leads of piezoelectric clicker onto each coat hanger
12. Place neon bulb an inch away
13. Press the button on the piezoelectric clicker

A small orange flash should occur inside the neon bulb!
