## Better access to information

Many charts and tables hyperlink to reports and tutorial pages. This makes it a lot easier to access information. Here are some examples (using the chart of Louis Armstrong):

Click on any sign to view the tutorial page for that sign.

Click on any Nakshatra to read the tutorial page for that Nakshatra.

Click on any planet to get the "Graha summary" report, which contains a wealth of calculations pertaining to that planet.
