The screenshot displays the Microsoft Patch Manager console interface. The main window shows a list of computers under the heading "All Computers (8 computers of 0 shown, 8 total) Last Refresh: 5/20/2015 6:19:57 AM". The list includes columns for Name, IP Address, Version, Last Reported, Operating System, Not Installed, and Last Cor. Below the list, there are summary statistics and two pie charts. The "Detailed Status" pie chart shows 67% installed, 18% not installed, 9% updates with errors, and 1% updates pending reboot. The "Summary Status" pie chart shows 68% installed, 32% updates needed. Below these charts are two tables: "Update Details" and "Computer Details".
