
ToolLateralusfullalbumzip

```
C:\WINDOWS\system32\cmd.exe
C:\>packzip
PackZip 0.1.1
by Luigi Auriemma
e-mail: aluigi@autistici.org
web: aluigi.org

Usage: packzip [options] <input> <output>

Options:
-o OFF    offset of the output file where storing the raw zipped data
-c        recreate from scratch the output file if already exists
-w BITS   windowBits value (usually -15 to -8 and 8 to 15), default is 15

by default this tool "injects" the new compressed data in the output file if
already exists, useful for modifying archives of unknown format replacing only
the data which has been modified without touching the rest

C:\>packzip noise.mp3 out.dat
PackZip 0.1.1
by Luigi Auriemma
e-mail: aluigi@autistici.org
web: aluigi.org

- open input file noise.mp3:
- open output file out.dat:
- offset      0x00000000
- windowbits  15
- compression: .....
- 740837 zipped bytes written
