

## Proxy Hack Client

The screenshot displays the FreeProxy Internet Suite interface on the left and the Wireshark network traffic analyzer on the right. The FreeProxy interface shows service status (Running) and console output (Not running). The Wireshark interface shows a list of captured packets with a filter set to 'http'. The selected packet details show an HTTP request with headers including Accept-Charset, Proxy-Connection, Referer, [truncated] cookies, Content-Type, Content-Length, and Content-Disposition. The console output in the FreeProxy interface shows the following text:

```
vb_login_username vb_login_password=6vb_login_md5password=406b28
```
