
O Bellissimi Capelli Falconieri Pdf Download

Some Important Information

About The COPY RIGHTS

The editions we chosen (before we edited) were out of copyright (that was, in the public domain) and we have taken into account the different provisions of copyright laws in different countries on the expiration of copyright, we have and will always abide by these laws.

About The Process Of Making The Sheet Music

1. Search for public domain versions as many publications as possible, taking into account, of course, copyright enters the public domain at different times in different countries, according to local copyright law;
2. Compare different versions entering the public domain;
3. Choose a version for re-editing (most of the time), or refer to several versions for a new version; or arrange it according to the chosen version;
4. Proofread at least 3 times (note by note, mark by mark) by different colleagues;
5. For some works, we may export an audio file, but this audio file is only for reference and cannot be compared with the audio played or sung.

About MORE SHEET MUSIC

MORE SHEET MUSIC is a professional team of music writers, adapters and editors, from 2016. Except for a small part of music creation work, most of our work is to adapt and re-edit music that has entered the public domain. We believe that by comparing versions, re-editing and adaptation, clearer versions, more versions and formats can be produced, which is needed in the era of internet, big data and artificial intelligence, it will contribute to the spread and use of music and make people love music and life more.
