
Excalibur L Ron Hubbard Pdf

:: :: ::

"You're poking a lot of fun at my old friend L. Ron Hubbard, whom I know for 20 years before Dianetics. I was the first man to read his EXCALIBUR. He says the first half dozen went crazy, and he may be right. In any event my MONITORS (my name for what the Church calls Guardian Angels) partially explains LHH, though not by name. It starts serially in October in CRION Magazine, Ural R. Murphy, editor, 521 Central Ave., Charlotte, N.C. I want the world to know for several reasons, two anyway: MONITORS is reassuring and I'm leveling with it, and the proceeds go to medically supervised research into what lies behind disease."--Arthur J. Durks, Paradise, Penn.
