The screenshot shows the TraX application window. The main area is a table with columns: Name, Channels, Artist, Title, Track, Duration, Status, Progress, Des..., and File. The table lists tracks for the album 'Circle Of Drums' by Babatunde Olatunji. The status of tracks varies, with some converted and some being analyzed. The right-hand side of the window contains an 'Info' panel for the selected file 'Circle Of Drums.iso', showing details like path, size (3.44 GB), type (SACD ISO), encoding (DST), hash, areas, durations, channels, and tracks. Below the info panel are 'Artworks (7)' and a 'Tags' section for 'Album Main' with fields for Disc, Album Title, Album Artist, Album Genre, Release Year, Recording Date, Publisher, Catalog Number, and Media Type. At the bottom of the window, a progress bar indicates '1 of 1 Disc Processed | 1 of 6 Track Analyzed | 6 of 12 Track Converted' with a 43% completion rate.
